Finding Articles

- For online access to articles, use a library database. Under the **Research Tools** link on the library homepage, choose **Find Articles Using Databases**.
- If you have a citation for a specific article, do a *Journal Title* search in the library catalog. If this doesn't work, use the second search box to find the journal electronically.
- For additional information about Finding Articles, please see: <http://www.lib.utexas.edu/students/find/findarticles.html>
